The Forum for Collaborative HIV Research cordially invites you and your staff to attend our HIV/AIDS mini-summit, awards ceremony and reception on Capitol Hill.

The mini-summit will feature two panels discussing the advances in the world of science, and challenges in the translation and implementation of this science. After the panels have concluded, there will be an awards ceremony for Dr. Anthony Fauci, Director of the National Institute of Allergy and Infectious Diseases and recipient of the 2nd C Everett Koop HIV/AIDS Public Health Leadership Award.

The award will be presented by Dr. Koop himself, who will be introduced by the Honorable Henry A. Waxman. Many of the Forum's members from public health, community, government and industry will attend, as well as other important leaders in the field, including Ambassador Mark Dybul. A reception to honor Dr. Anthony Fauci will follow at the Visitor Center on the Hill.
